Special registrations are available for employees of Not For Profit organisations

“1st Conferences are for people of all levels of experience who recognize that agile and lean principles and techniques are a key to more effective business.”

- If you're new...make sense of agility, and how it can work for you.
- If you're experienced...revisit the core principles of agility, using the Heart of Agile structure.
- If you're scaling up...and you want to do it properly.
- If you want to innovate in an agile way.
- If you work in an NFP, in education or another field...and want to see how agile is more than just a tool for Software Development and IT.
- If you want to explore new ways of working... more and more Australian companies are adopting new ways of working and seeking lean and agility into their business. Hear about the success and failure stories from other leaders and people in organisations and situations just like yours
- If you want a broader outlook...understand what “good looks like”, in terms of organisational agility, on an international and local level.

Speakers and facilitators

Visiting us from The Netherlands, **Jurgen Appelo** returns to 1st Conference. His latest writing is about innovating and scaling at the same time, through a lens of agility.

Soledad Pinter, head of Heart of Agile Europe will be visiting from Belgium.

Craig Brown is the chief curator of content, who is completing the schedule with compelling experts, drawn from Tabar's extensive network.

The event's format is based upon **Dr Alistair Cockburn's** (Agile Manifesto co-author), *Heart of Agile* concept. We are a signatory to the Diversity Charter.
